

Dear Pandacorn parents,

We kicked off the month with the setsubun celebration. Scary "Oni" (demon in Japanese) came to school to bring us bad luck!

Thankfully, we had our "mame" (beans) to chase them away. While we showered those ill-intentioned creatures, we shouted: "oni wa soto" (out with evil) and "fuku wa uchi" (in with fortune). This will surely bring us good luck throughout the year.

This month we started a new and very important unit, "Health, Safety, and Hygiene". We studied dental hygiene as well as healthy and unhealthy foods. We coloured some teeth with markers, then brushed them with a toothbrush. We brushed left to right, up and down and round and round. When we finished, the teeth were all clean and white! For science, we learned about people's needs. Human beings have 4 needs: air, water, healthy foods, and shelter. The latter keeps us safe, warm and provides us with a place to sleep. At the end of the unit, we made our shelter for Mr. Koala using skewers and marshmallows. We had to find a way to make the house sturdy enough to stand on its own. Then we added a rooftop. We did a great job! Mr. Koala was so happy with his new home!

For Valentine's Day, we made a card for 2 very special people: our moms and dads. Thank you so much for all the love and care you provide us with every day. We love you!

On Friday, February 18th, we came to school in crazy hats and made a car after lunch. It was so yummy.

In February we celebrated Kavin, Miraya, and Musashi's Birthdays.

Happy Birthday, friends! We also welcomed 3 new friends: Abir, Inba, and Dhiya. We are so happy to have you guys!

The last theme of the year is "Our Universe". It will undoubtedly be as interesting as the previous one.

Kind regards,

The Pandacorn Team
