

Dear Pandacorn families,

The first month of the year was awesome! We had so much fun with our new friends and teachers! The unit for April was "Who Am I?". We discussed emotions, learned our birth month, and enjoyed songs and games. For art, we made a book about ourselves. Inside, we drew our portrait, favourite toy, animal, food and even included our handprints! We also used our baby picture to make a sunflower and our family photos to create a family tree! In science, we learned about our body parts and their functions. For example, we use our noses to smell and our eyes to see. Speaking of which, we met a new friend: Mr. Koala. He is so funny but cannot see very well, so we made him a pair of glasses. We tried them on and looked so cute.

Additionally, we started to learn Japanese and are having so much fun. We made a butterfly and a Koi fish (Japanese carp)! We are also reinforcing our phonics and writing skills in literacy. Spring marks the return of birds and other living creatures. One of them being crayfish. We tried our luck and fished 5 of them at the pond! We also enjoyed a picnic on a warm and sunny day.

On the last school day of April, we had our first theme party of the year. We all came to school in our favourite outfits, we played the "Mystery Box" game and made pancakes. We prepared the batter by mixing eggs, milk, and pancake mix.

After lunch, we made happy faces by adding bananas, biscuits, chocolate chips, and whip cream. It was so yummy!

This month we celebrated Aaryana's Birthday!

We look forward to our next theme, "Flowers and Plants".

Kind regards,

The Pandacorn Team
