July

Dear Pandacorn parents,
We concluded Term 1 with the "Summer Time" unit. What a great unit it was! We learned about the 4 seasons of the year, as well as the life cycle of butterflies. Did you know that butterflies are born as caterpillars? They eat lots of leaves and when they are big and fat, they build cocoons (or chrysalis) and inside, transform into butterflies! During our art classes, we made a season poster, a collage with coloured tissue paper, and suncatchers! For science, we learned about the weather, how we dress for it and helped the itsy bitsy spider stay dry in the rain by making an umbrella. What an adventure!

On Tuesday, July 7th, we had a very special day. We celebrated Tanabata. We were so happy to welcome our parents to school. This event was great! It started off with a puppet show, followed by a craft. We decorated a star and drew our wishes on it with our mommies and daddies. We then hung our wishes on the Tanabata tree. May they come true. The event was concluded with the Tanabata song. Thank you mom and dad for coming! We hope to welcome you again soon.

The last week of school was crazy busy! The Magical and Sparkling Pandacorns went to the water park respectively on Wednesday and Thursday. On the last day of school, we had our summer party. We played some games, earn prizes, and made snow cones after lunch! It was fantabulous!

We celebrated Karen's birthday in July. There will be 2 birthdays in August: Rei and Ishanvi. Happy birthday, friends.

We had so much fun in Term 1 and cannot wait to see what Term 2 holds.

Kind regards,

The Pandacorn team
