

Dear Pandacorn families,

This month's unit was "Fairy Tales". We learned important concepts such as compassion and stranger danger. We engaged in activities and studied new "Fairy Tales" throughout the month.

We made puppets and reenacted the 3 Billy Goats Gruff story. We made a concerted effort to raise our voices. One day, we were asked to colour a piece of paper. We then covered our beautiful colouring with black. Yuck! We scratched the black colour with toothpicks to create a pretty drawing. We understood that beauty can sometimes be hidden, just like in the "Ugly Duckling" story.

We also made the 3 little pigs' houses and blew them down like the big bad wolf. It was very easy to blow the straw and stick houses, but the rock house proved itself to be too sturdy for us.

Our science project for this month was to make a toy box. We cut tissue boxes and made lids with handles. We then decorated our boxes!

On October 12 and 25, we went on a field trip to the traffic park. We learned about the rules of the road. For example, drivers and cyclists must keep to the left. They also have to stop when the traffic light turns red. After that, we had a picnic. This field trip was simply wonderful.

The following day, the fire department invited us and our parents to a disaster prevention program. The firefighters shared their knowledge and expertise on how to use fire extinguishers and AEDs in case a disaster occurs. Our parents helped us put out the fire with the fire extinguishers. We also experienced a real earthquake in a truck! To conclude the day, we had another picnic with our parents. This disaster program was a huge success!

On Friday, October 28, we enjoyed a Halloween Party . We decorated our Trick-or-Treat bag, made slime and went trick-or-treating around the school! After lunch, we made monster doughnuts.

In October, we celebrated Go's birthday. Happy Brithday Go! Last but not least, we welcomed a new friend in the Sparkling Pandacorn family. His name is Pragnay!

It was a busy but exciting month! Our next unit will be "Environment".

Kind regards,

The Pandacorn Team
